## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 50-52 and 54 are rejected under 35 U.S.C. 102(b) as being anticipated by Norman et al Patent No. (6,070,372). Norman discloses an enclosure consisting of a climate controlled fold-out room that is selectively positionable in a collapsible configuration and comprising: a utility enclosure (10) mounted on a concrete slab (20) consisting of an exterior shell (30) having a plurality of walls (40,42,44,46 & 48) with a roof (40). The said enclosure is accessible for at least one maintenance personnel and climate controlled by an air conditioning unit (65).

### ***Allowable Subject Matter***

**Claims 24,47-49 & 62-64 are allowed over the prior art of record.**

Claims 53,55 & 56-61 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
